

How do I search for a group of listings I want to change?

Saved From: <https://apps.froo.com/kb/article/how-do-i-search-for-a-group-of-listings-i-want-to-change-15.html>

Froo! Bulk Revision allows you to display all live listings or have a more detailed filtered search. The filtered search enables you to specify a price range, select a end date range, choose a listing type, select number of bids and enter a title or description keyword.

Please Note: Keyword search is a mandatory field due to eBay search methods.
