order to display you live listings within the the cross sell gallery with take a snap shot (cache) your live listing iriodically. If you make a change to you live listings such as changing the item title or gallery image these anges won't be shown in the gallery until the next time we cache your live listings. The re-caching is ormally completed within a couple of hours.	g

I've update my title and/or images, but they haven't changed within
